

Dear Parents,

My name is Julie Taaffe. I will be your child's math teacher starting January 3rd to the end of this school year. I have taught middle school math full-time in the past. I have been a substitute teacher in the Tigard-Tualatin School District for the last six years. I tutor middle and high school kids in algebra I, geometry and algebra II.

I am looking forward to this opportunity to work with your child and get to know you.

Sincerely,

Julie Taaffe
